

Name _____ StudentID _____

01219114 & 01219115 Programming I

Midterm Examination

29 September 2020

Instruction

1. Write down your name, and student ID on this page.
2. There are 4 levels. **Save your program for each level in separate files** using the following filenames. Points for each level are listed below. Total points are 6.

Level	1.1 & 1.2	2	3	4
Filename	expense1.py	expense2.py	expense 3.py	expense 4.py
Points	1.25	2.5	1.75	0.5

3. Underlined characters in sample outputs are user input.
4. Suggestion:
 - Level 1.1 is part of Level 1.2
 - Levels 1 and 2 do not depend on each other. You can work on Level 2 without completing Level 1.
 - To continue on Level 3, you should have Levels 1 and 2 working. (You can partially work on Level 3 if you either have Level 1 or 2 working but not both working.)
 - In Level 3, if you do not know how to read file, edit your code to read numbers from user.
 - Level 4 continues from Level 3.
5. At the end of exam, on this page, circle ALL the levels that you have worked on.

List of levels on pages:

Level	Page
1	1-2
2	2-3
3	4-7
4	7-8
