

Name:

Student ID:

219114/115 Programming I

Midterm Examination

29 September 2020

Instruction

- Download the files L1.py, L2.py, and L3.py from the course's Google Classroom and complete them.
- Write a report in a file named midterm_report.pdf. In the report, explain for each of the three Python files, if you complete it 100% or you encounter some bugs. Attach screenshots of your source code and your run results. Use the template in midterm_report.txt to guide your writing. The report is mandatory.

No report = No midterm score

Submission:

- **Create StudentID_Firstname_midterm folder, where StudentID is your KU ID and Firstname is your given name**
- **Put the files to submit, L1.py, L2.py, L3.py, and midterm_report.pdf into this folder**
- **Zip the folder and submit the zip file to the course's Google Classroom before the due time**
